Brewed and Bottled by Port Brewing Company, San Marcos CA

AVAILABILITY: Seasonal Rotating Release

FORMATS: 22 Ounce Bottles and Limited Draft

BEER DESCRIPTION: Made in the German “Stein Bier” Tradition, this smooth, robust dark lager is brewed with the addition of Glowing Hot Granite to the kettle. The addition of these Hot Rocks results in a vigorous “Super Boil” of sorts. This volcanic boil super caramelizes the sugars in the wort lending toffee, smoky and caramel like flavors to the beer we can’t get from a normal boil.

DESCRIPTION AND INFORMATION:

AROMA- An incredibly inviting aroma profile that is mostly dark caramels, some chocolate and toffee.

TASTE- A Robust Dark Lager with layer upon layer of caramel sweetness. While the balance certainly leans towards sweet, there is enough hop character and roasted barley to keep the beer from getting cloying.

COLOR- Very deep brown to ruby with streaks of red intermixed.

O.G.- 1.062

FINISH- Sweetish with some of the toffee and cocoa notes lending a faint drying quality in the beer.

BODY- Medium with a decidedly silky and near robust mouth feel.

ABV- 6.2%

HOPS- German Magnum and Tettnanger

SUGGESTED SERVING TEMPERATURE- 48-52F
